Dear Ambassador de Brum:

I am forwarding to you 19 documents, both in hardcopy and on one updated CDROM set, that recently were made available for public release by the Department of Energy's Office of Nuclear and National Security. These documents deal with aircraft filter radiological surveys, Operation IVY Task Force Seven activities, height data of the IVY Mike cloud, Operations IVY and HARDTACK film badge and dosimetry readings for aircraft crews, and participation in and discussion of various Pacific atmospheric nuclear tests.

I have provided Ambassador Michael J. Senko at the American Embassy in Majuro a second hardcopy set and three updated CDROM sets that now include these documents and have asked him to deliver them to Minister Alvin Jacklick.

Sincerely,

A handwritten signature in black ink, which appears to read "Frank Hawkins". The signature is stylized with a large initial "F" and a long, sweeping underline.
